Workshop
ROADMAP FOR EFFECTIVE E-GOVERNMENT ECOSYSTEM

Workshop by Estonian ICT Cluster
09:00-12:00, October 28, Zanzibar

The aim of the session is to give practical guidance through the main steps of developing a resilient digital transformation roadmap, covering topics such as:

- short introduction to the e-Estonia story – Sven Aulik
- key pillars of an effective e-government ecosystem
- data and registries – how to manage and protect the data from different areas, which registries are of most importance and how they should be built in order to be most efficient – Raul Kaidro
  data exchange – how to build interoperability between the different registries in a secure manner – Kedi Välba
- digital identity – how to manage secure access to the data/registries, what are the key principles and the structure of a secure digital identity – Raul Kaidro
- cyber security – Carl-Robert Reidolf

TIME	ACTIVITY	RESPONSIBLE/MODERATOR

SESSION 16: SECURITY, TRUST AND DATA PROTECTION IN DIGITAL ECONOMY

10:00 – 11:30hrs

Topic: Consumer Protection and Data Protection in Digital Platforms

This session will discuss the techniques on how everyone in Tanzania will enjoy safe and protected digital space as they do in physical space so that security threats or concerns do not hinder digital transformation and the use of digital services.

- Digital Security Capability
- The Use of Electronic Identity and Trust Services in the Digital Economy

    Consumer Protection and Data Protection in the Digital Platforms
- Protecting Users from Digital Harmful Content

    Digitalization of Emergency Response and Disaster Management Systems
- Strengthening the National Security and Information Space
- Digitization of the investigation and prosecution process
